Period for Reply

A SHORTENED STATUTORY PERIOD FOR REPLY IS SET TO EXPIRE 3 MONTH(S) FROM THE MAILING DATE OF THIS COMMUNICATION.

- Extensions of time may be available under the provisions of 37 CFR 1.136(a). In no event, however, may a reply be timely filed after SIX (6) MONTHS from the mailing date of this communication.
- If the period for reply specified above is less than thirty (30) days, a reply within the statutory minimum of thirty (30) days will be considered timely.
- If NO period for reply is specified above, the maximum statutory period will apply and will expire SIX (6) MONTHS from the mailing date of this communication.
- Failure to reply within the set or extended period for reply will, by statute, cause the application to become ABANDONED (35 U.S.C. § 133).
- Any reply received by the Office later than three months after the mailing date of this communication, even if timely filed, may reduce any earned patent term adjustment. See 37 CFR 1.704(b).

The text of those sections of Title 35, U.S. Code not included in this action can be found in a prior Office action.

Please refer to the first Office action, paper No. 2, in its entirety as all the rejections of the first action are maintained and made final in this second action. The examiner would point out that paragraph 2 of the first Office action should have stated that the claims are rejected as being anticipated rather than clearly anticipated. The explanation of this rejection seems complete even though applicant has apparently misunderstood or misread this explanation.

Applicant's arguments filed September 15, 2003 have been fully considered but they are not persuasive. Applicant request reconsideration based upon Schiemann's lack of a substantially open top portion. Applicant states that the spout opening is much smaller than the top view of the second container portion 16. The examiner agrees that the spout opening is much smaller than the top view. Applicant has made the error of interpreting the entire top view as the open top portion rather than only the threaded neck 16. The rejection clearly states that reference sign 16 of Schiemann representing the threaded neck is the substantially open top portion. The threaded neck opening is best shown in Fig. 2. When the threaded neck 16 is viewed by itself and one considers its structure without considering adjacent top wall portions as also being the top portion, it is determined that this top portion is substantially open as the open area is greater than 50% of the outer profile area of the threaded neck.

THIS ACTION IS MADE FINAL. Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

A shortened statutory period for reply to this final action is set to expire **THREE MONTHS** from the mailing date of this action. In the event a first reply is filed within **TWO**

Art Unit: 3727

MONTHS of the mailing date of this final action and the advisory action is not mailed until after the end of the THREE-MONTH shortened statutory period, then the shortened statutory period will expire on the date the advisory action is mailed, and any extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of the advisory action. In no event, however, will the statutory period for reply expire later than SIX MONTHS from the mailing date of this final action.
